ChatGPT is an artificial intelligence chatbot developed by OpenAI. We will use ChatGPT for automated python code generation. You will get in depth lesson on it in the upcoming videos. Let's set up our ChatGPT account first.

Step 1: Go to http://chat.openai.com/.

Step 2: If you are already an account holder, click on **log in**. If you are new at this site, click on **sign up**.

Step 3: For signing up, put your **active email address** in the blank box. Click **continue**.

Step 4: Put a **password** in the second box. Click **continue**.

Create your account

Note that phone verification may be required for signup. Your number will only be used to verify your identity for security purposes.

Edit

Password 👁

Your password must contain:

* At least 8 characters

Continue

Already have an account? Log in

Step 5: Go to your email and check a mail has been sent from Openai to verify you. Open the **email** and click on **verify**.

Verify your email address

To continue setting up your OpenAI account, please verify that this is your email address.

Verify email address

This link will expire in 5 days. If you did not make this request, please disregard this email. For help, contact us through our Help center.

Step 6: Provide your first name, last name and date of birth. Click continue.

Tell us about you

First name ⊙∨	Last name
Birthday	

Continue

By clicking "Continue", you agree to our Terms and acknowledge our Privacy policy

Step 7: Select your **country** from the drop-down menu. Provide your **active cell-phone number**. Click **send code**.

Verify your phone number

🏴∨	+880

Send code

They may want to check whether you are a human. So, solve the puzzle you see from your end.

Step 9: You will see a code has been sent to your phone number. Put the code in the box and you are done setting up your ChatGPT account.

That's all for now. Thank you!
